**NECK BROKEN AT FOOT BALL**  
Camden, N. J., Nov. 19.—William Steedle, aged 17, was killed to day in a foot ball game at Beverly, N. J. During the game Steedle was tackled while endeavoring to make a touchdown, in fact his head struck the ground with terrific force, breaking his neck.

It was beginning to get dark and the ball was kept in the air much of the time. The last play was an attempt at a drop kick for goal by Harris from Northwestern's forty-yard line. The ball went true but fell short, Johnson getting it on the forty-yard line. It was too dark to see

**PASSAVANT HOSPITAL.**

Attention is again called to the fact that Thanksgiving will come on next Thursday and that the hospital will be grateful to its many friends for liberal offerings on that day. All have been blessed the present year and it is fitting that a thank offering should be made and there can be no more worthy channel than this. The hospital can use all sorts of vegetables, canned goods, dry goods, sheeting, towels and especially cash is needed for debts and a new range which the kitchen must have in the near future. It is hoped that all the friends will respond in their usual generous manner. Gifts will be received during the entire day and the building will be open from 2 to 5 p. m. for visitors, and it is the desire that all come who can and look over the place.

**Druggist Lee P. Alcott Tells People of Jacksonville Quick-Means to Cure It.**

For years cod liver oil has been known to possess remarkable curative and healing properties for throat, bronchial and lung troubles, but, as a famous physician has said, on account of the grease it contains, it has been difficult for people to take enough of it into their systems to combat a thoroughly settled disease. "Now, however," continued Mr. Alcott, "we have Vinol, which contains in a highly concentrated form all of the medicinal curative elements actually taken from fresh cods' livers, but without a drop of oil or grease to upset the stomach and retard its work, and there is no limit to the amount any person can take into their system to overcome disease. Here are two letters that have just come to our attention:

"Mrs. Louisa Stover, of Elkhart, Ind., writes: 'For a long time I suffered with bronchial trouble and feared consumption. I could not seem to get any relief from cough medicines, old forms of cod liver oil or emulsions. I coughed badly, and my chest was sore and irritated. Vinol has healed the soreness and stopped the cough and has strengthened and invigorated my whole system.'

"Mrs. John Hoskins, Bangor, Pa., writes that Vinol cured her son of bronchitis, from which he had suffered for years after everything else had failed. "We ask every person in Jacksonville suffering from chronic colds, coughs, bronchitis, or who need an invigorator and strength-creating medicine to try Vinol on our guarantee to return the money if it fails." Lee P. Alcott, Druggist.

I suggested that if they would get bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. ## AFTERNOON RECEPTION TO CELEBRATE THE BIRTHDAY OF COL. JOHN ROBERT ROBERTSON, JUNIOR.

The round table was set for twelve. Tea, baby biscuit and strawberry jam being bountifully served, a dainty, round, white cake was brought in, a pretty, red wax candle burning in the center, and twelve china Cupids, representing the twelve months in the year, standing in a circle on the cake. Each guest cut a slice where Cupid stood, and this was the souvenir in memory of the precious baby's birthday. The center decoration of the table was a magnificent cut glass vase filled with white carnations. Among the guests were Mrs. John Robertson and daughters, Mr. and Mrs. Woods, from South Main street and a stranger, who happened in. "I would be hard to guess who took the most pride in the 'grand baby,' Mrs. Pierson or Mrs. Robertson. S. F. Ellis.

The compensation of railway employees in the United States increased from \$465, 001, 581 during the fiscal year ending June 30, 1897, to \$830, 000, 000 during the last fiscal year, and the number of employees from 823, 476 to 1,320,000.

During the fiscal year of 1904 the tobacco users of the country paid, in the form of customs and internal revenue taxes, \$65,800,000; more than enough to pay the interest on the public debt and take care of the nation's wards, the Indians.

It has been asserted that a square foot of uncovered pipe, filled with steam at 100 pounds pressure, will radiate and dissipate in a year the heat put into 3,716 pounds of steam by the economic combustion of 398 pounds of coal. Thus, ten square feet of bare pipe corresponds approximately to the waste of two tons of coal per annum.—Scientific American.

Locomotives exported from the United States to Japan in the nine months ending with September, 1904, were fifty-eight in number, against eighteen in the corresponding period in 1903 and twelve in the corresponding period of 1902. The value of these exports for the nine months of 1904 was \$442,100, as compared with \$178, 213 in the corresponding months of 1903 and \$111,152 in 1902.

Hereafter there are to be no more issues of "crisp bank notes." The government bureau of engraving and printing have obtained a patent by which they will treat bank notes with a chemical preparation which makes the paper soft and velvety, almost like a tissue of silk. The chemical preparation acts as an antiseptic and preservative. When applied to old documents it seems to knit the fibre together and prevent further decay.

If the excavations for the New York subway were in a single tunnel six feet high and three feet wide, it would reach from New York to Chicago. The track approaches are seventy miles in length, all underground. The timber employed would build 10,000 two story houses, and the rock taken out would make a respectable imitation of the great wall of China, a structure three feet thick, eight feet high and 500 miles long. Its express trains will make thirty miles an hour; it cost \$35,000,000.

An order for 7,000 tons of steel ties has been given by the New York Central railroad to the United States Steel corporation. The ties will be made at the Carnegie plant and will be used on the New York Central and Lake Shore roads. The Vanderbilts have been experimenting for several years with steel ties and the result is the order just given. If they prove a satisfactory substitute for wood, all railroads will soon adopt them, on account of the growing scarcity of wooden ties and consequent increase in price.

It is further asserted that 35,000 persons have been settled in the southwest, and that the same number have been taken into the southwest.

It has been decided to repair the damaged sleeper San Rafael in the Alton shops at Bloomington. The car was lifted from the two flats Friday morning and placed upon freight car trucks and then removed to the coach repair shop. It will there be given complete overhauling. This is the first Pullman car overhauled in the shops in many years and the attaches will try to turn out a first class job and one that will compare favorably with the Pullman product.

The case of the Gwyn brothers for damage against the C. & A. is set for next Wednesday in the circuit court at Bloomington. The various members of the crew of the Alton limited have been notified to report there on that day. Much interest will be taken in this suit. It involves the right of a railroad company to compel a passenger to display a check in a hat or other conspicuous place indicating that a ticket has been given up and fare paid.

J. N. With all her vast territories and 150,000,000 population, Russia raises less than half the wheat produced in the United States. If that country would dismiss half its soldiery and set them to farming, dismantle her warships and use the funds in manufacturing, cease spending billions in war and use the funds to establish schools for the people; in other words, if she should abandon the ways of barbarism and adopt those of civilization she would not continue to be the object of contempt and dread which make her a terror to the nations.

### New Conductor's Modest Request.

A droll Irishman has been drafted into the street car service of Columbus and affords much amusement to the passengers of the High street line, as when a large crowd attempts to board his car he sings out, "Will them in front please to move up so that them behind can take the places of them in front and leave room for them who are nayther in front nor behind?"—Columbus Dispatch.

### Venezuela Alligators.

Though but few alligator skins are sent abroad from Venezuela, it is not on account of scarcity of alligators. It is strange that nobody has taken up the hunting of these reptiles. They are there in the lakes and lagoons and rivers in untold numbers and of all sizes. The skins are well worth securing, and alligator oil brings a high price, being used for medicinal purposes.

### AUTOMOBILIST MURDERED.

Joliet, Ill., Nov. 19.—The body of a man said to be William Bates, a Chicago chauffeur, was found early this morning by a farmer, two miles south of Joliet, sitting upright in his automobile with a bullet hole in his head.

Bates was last seen when he left the Auditorium hotel in Chicago at 9 a. m. Friday, with a passenger, a man bound for Joliet.

The bullet had entered Bates' head from behind, and went clear through, being found on the floor of the automobile.

The automobile, a big four-seated touring car, had been backed to the side of the road and the rear wheels were blocked with riles of dirt to keep the machine from going into the ditch. The machine was marked Orlando S. Wells, Chicago and Milwaukee.

Footprints in the road indicate the murderer or murderers sprang from the car after the shooting and walked for a short distance back toward Chicago, and then turned toward Joliet.

**ITCHING ECZEMA**

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried. During the time I lost about one-half of my hair. I began S. S. S. doubtful of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. B. C. Nonfalk, 107 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and decide upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent. S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.

**A Gypsy Prophecy.**  
An English magazine relates a curi-  
ous instance of gypsy prophecy. The  
third Earl of Malmesbury, as Lord  
Fitzharris, was riding to a country  
review near Cheltenham, when his or-  
derly, some distance in front, ordered  
a gypsy woman to open a gate. The  
gypsy woman quietly waited till Lord  
Fitzharris and his staff rode up, when  
she addressed them, saying, "Oh, you  
think you are a lot of fine fellows now,  
but I can tell you that one day your  
bones will be rotten in this field." Lord  
Fitzharris laughed and asked her  
whether she thought they were going  
to have a battle, adding it was not very  
likely in that case they would choose  
such a spot. More than forty years  
later the field was turned into a cen-  
tery.

A measuring worm  
Went out one day  
To measure a bit  
Of plaid.  
He measured a skirt  
For a little boy.  
And the little boy  
Got mad. —Push.

**APPEARING OLD**  
Acts as a Bar to Profitable Employ-  
ment.  
You cannot afford to grow old.  
In these days of strenuous competition  
it is necessary to maintain as long as  
possible ones youthful appearance.  
It is impossible to do this without re-  
taining a luxuriant growth of hair.  
The presence of Dandruff indicates the  
presence of a burrowing germ which  
lives and thrives on the roots of the  
hair until it causes total baldness.  
Newberry's Hairdressing is the only known  
destroyer of this pest, and it is as ef-  
fective as it is delightful to use.  
It makes an elegant hair dressing  
as well as a Dandruff cure.  
Accept no substitute—there is none.  
Sold by leading druggists. Send the in-  
velope for sample to The Hairdressing Co.,  
Detroit, Mich.

## FOR THE LITTLE ONES.

**An Amusing Trick That May Be Play-  
ed With a Napkin Ring.**  
All that is necessary is a napkin  
ring. At the table is a good time to  
try it, if you are allowed.

Insert the two forefingers into  
the ring from different sides and  
slowly, letting the direction be away  
from the body. Close the finger and  
thumb of each hand around the ring  
and bring the tips of the four to-  
gether. Open them and drop the  
ring. This sounds simple, but if  
one succeeds in a half dozen at-  
tempts it is astonishing. The im-  
portant fact to get into one's head  
is when the tips of the fingers and  
thumb are brought together the tips  
of the fingers of the right hand  
must rest on the thumb of the left,  
and vice versa. In opening keep  
the fingers and thumbs joined to-  
gether, perfectly still, and the ring  
will at once be free.

Capital fun may be had with this  
trick if one not knowing the secret  
endeavors to do it.

**Hints For Girls.**  
Some one has suggested twelve  
things that every girl can learn be-  
fore she is fifteen. Not every girl  
can learn to play or sing or paint  
well enough to give pleasure to her  
friends, but the following "accom-  
plishments" are within everybody's  
reach: Shut the door, and shut it  
softly. Keep your room in tasteful  
order. Have an hour for rising  
and rise. Learn to make bread as  
well as cake. Never let a button  
stay off twenty-four hours. Always  
know where your things are. Never  
let a day pass without doing  
something to make some one com-  
fortable. Never come to breakfast  
untidily dressed.

**Where Would You Land?**  
If you were to start from Omaha  
and travel continuously in a north-  
easterly direction, where would you  
eventually land?

### JOHN MILLER ARRESTED.

Springfield News: A message from Payson says:

A man giving his name as John Miller, and claiming Jacksonville as his home, was arrested there early this morning, charged with horse-stealing. The man arrived there shortly after dark. Soon after his arrival Joseph Shafer and another man representing the anti-Horse Thief association of Vanderville, Christian county, arrived in town on the track of a man who stole a horse at Tower Hill. These men, assisted by J. D. Pollard and William Welch, at once instituted a search and eventually found a horse and buggy and a led horse tied by the roadside about a mile and a half from town. The men kept a watch on the horses until daylight, when Mr. Pollard remembered a man who had been in his place of business last night and he was traced to the Greenwald house, where he was arrested this morning. The man claims that he traded for the animal near Pana on Tuesday.

### MEXICO WILL GO TO GOLD BASIS.

City of Mexico, Nov. 19.—President Diaz, after listening to the opinions of members of his cabinet council held last evening, approved the plan of Finance Minister Lluantour for monetary reform and ordered that a bill be sent to congress at once.

The money medium will continue to be the present silver dollar, with its weight and fineness unchanged. Its gold value will be fixed at the equivalent of seventy-five centigrams of the yellow metal, putting it on a level with the United States half dollar in value.

It is positively stated that the measure in preparation do not afford the slightest ground for variation in the conditions of the silver market, as Mexico is principally interested in holding up the price of that metal.

### ILLINOIS NEWS ITEMS

Buildings Damaged by Fire at Decatur Will Be Rebuilt—Gold Found at Irene.

Decatur—Plans already are under way for the rebuilding of the Decatur hotel, which, together with the Arcade building, was gutted by fire Friday. It is expected that work on the new hotel will be rushed as soon as the insurance adjusters have completed their work.

The Arcade store will begin business at once, although necessarily on a small scale at first. Little damage was done by the fire to the grocery department, which is on the ground floor, and this department will resume business the first of next week.

Revised estimates of the losses sustained in the fire aggregate \$97,750. The loss, so far as the hotel is concerned, is nearly entirely covered by insurance, while the owners of the Arcade will not be so fortunate. The latter property was only partially protected by insurance.

The damage to the Arcade building is not so great as at first supposed. Several insurance agents went through the structure Saturday morning and made a critical examination of the situation. The worst effects of the blaze are visible on the third floor, where the flames found communication from the hotel.

Sterling—Sixteen farmers in Bureau county will file suit in the Bureau circuit court against the sanitary drainage district of Chicago for \$241,000.

Irene—The land owners near this place are excited over an alleged gold discovery near here.

### FOUND DEAD.

Quincy, Nov. 19.—Mrs. Frances B. Taylor, residing at 110 Cedar street, was found dead on the floor of her home this morning by a neighbor. Judging from the condition she was in, she must have been dead all night. She was lying on her face fully dressed. On the table was a box containing about 200 one-fourth grain morphine tablets, and in the other room there were two beer kegs—one empty and the other with a faucet in it, had only a little of the contents left.

Charles E. Wetzel, of the Court House pharmacy, says the woman had bought the drug at his place of business for many years. A long time ago she underwent several operations and received a prescription for the poison. She got the habit and later on the physician who treated her said that as she had to have it, she should be given what she wanted. She would buy it when she had the money in lots of 1,000 tablets, because it was cheaper that way than when bought in single doses.

### FARMERS COMPLAIN.

Rockford, Ill., Nov. 19.—A man giving the name of H. W. Baskett and representing himself as agent of the Illinois State Medical and Surgical Institute of Chicago, was arrested this afternoon on complaint of farmers living near here that they had been inveigled into signing notes in return for an agreement to treat and supply medicine to rheumatic sufferers. Baskett gave up the notes, which aggregated \$955, for his release. The agreement bore the signature of C. N. Hopkins, as treasurer of the institute. Baskett also had notes made at other places, which he retained.

### BIG SALE OF TIMBER.

Washington, Nov. 19.—The commissioner of the general land office has been notified that the United States owns timber on about 1,000,000 acres in the Chippewa National Forest.

### TUESDAY, NOV. 22.

The most talked about attraction for the coming theatrical week in Jacksonville is Miss Eva Tanguay and "The Sambo Girl," who come to the Grand on Tuesday, Nov. 22. Miss Tanguay's reputation as a comedienne is firmly established in the east, where the Tanguay method and mannerisms are the object of imitation by many aspirants for histrionic fame. It was by reason of her creation of the distinctly unique roles in "The Chaperones" and Frank Dan-iel's production of "The Office Boy" that Miss Tanguay succeeded in making the dramatic reviewers of the eastern states "sit up and take notice" and in the part of Charlotte Dashing-ton in "The Sambo Girl" she has, it is said, added another comedy creation to her repertoire that has won for her additional acclaim.

Miss Tanguay's company is a large one and apart from a particular fine cast of principals, she has also been supplied with a chorus of comely girls who are not only good to look upon but who can really sing the musical score of "The Sambo Girl" intelligently and correctly.

"The Irish Pawnbroker" with 25 people will be at the Opera House tomorrow night.

TO MOVE CHINATOWN. San Francisco, Nov. 19.—With a capital stock of \$25,000,000, a local company has been organized for building a model oriental city on the bay of the south shore and moving the Chinese of the city to that place, and further to transform the present Chinatown district into a residence neighborhood.
